

and on the south side of the head of said Cove and close to which post is now fixed
a Stone where on are graven these Words "Here stood Wm Fullers Red Oak" (the
aforesaid post being referred to in a patent that was in the Year Seventeen hundred
and six granted for a Tract of Land called Homewoods purchase, and also in the
patent that was granted in Seventeen hundred and thirty five for a tract called
Homewoods Lot into which last mentioned Tract the Tract called Homewoods
purchase was resurveyed) then running from the said post or Stone Mark as
aforesaid with Fullers Land the two following Courses Viz. North West Sixty five
perches and South West Seventy six perches to a little Marsh, thence on the Marsh
South Eighty two degrees West to the side of a Creek called Homewoods Creek Then
up and with the said Creek as the Creek runneth and with the Water Edge thereof
to a Stone where on are graven these Words "The Division Boundary Between H.S.
and I.H. 1763 now fixed on the East side of a Cove that lies to the South Eastward
of the Brick Dwelling House where Charles Homewood did live and in a hole almost
at the head of said Cove the middle of the House that fronts the Water bears from the said
Stone North Twenty seven degrees forty five minutes West Then running from the said
Stone across Homewoods Lot with a Line drawn North twenty five degrees
East Three hundred and Seventy three perches to another Local post Bounded to
four Notches and marked 1734. heretofore planted in the very spot where the
Original market Chesnut mentioned in the patent that was granted for Homewoods
Lot in Sixteen hundred and Sixty three and referred to in the patent granted Twentien
hundred and thirty five did stand and close to which said post standing near the Head of a
Branch of Magotty Creek there is now fixed a Stone where on are graven these Words
"The End of H.S. and I.H. divided Line: also a Boundary of Homewoods Lot" then
from the said Local post to market with four Notches or last mentioned Stone running
South Seventy six degrees East Seventy perches and three Quarters of a perch
Such being the true Course and ^{distance} tho' it is different from the Course and Distance
mentioned
