

387B.

(a) A Sanitary Facilities Fund is hereby established. It shall consist of two parts, as follows:

1. The planning part which shall be available to the State Department of Health to finance planning for water and sewerage facilities and for solid waste disposal systems and solid waste acceptance facilities *and for collection and disposal of litter, refuse, or other solid wastes programs*. The State Department of Health is hereby authorized to utilize funds appropriated in the program of the annual State operating budget which provides for general local health services, for this purpose. When so used, the proportion of State, county, and local funds, respectively, shall be that specified for the financing of minimum health services. The planning for water and sewerage facilities, for solid waste disposal systems, and for solid waste acceptance facilities *and for collection and disposal of litter, refuse, or other solid wastes programs* to be financed in this manner may be financed jointly by, or under the joint authority of the State Department of Health and any county or Baltimore City, or the Washington Suburban Sanitary Commission.

2. The construction part which shall be available to the Board of Public Works to finance construction of basic main facilities of a sewerage system, as defined in the Federal Water Pollution Control Act, for the collection and treatment of sewage and industrial wastes from lateral or collector sewers. Funds for this part shall be those which may be available from specifically authorized sanitary facilities sewerage loans. Such funds shall be available under the conditions set forth in the legislation authorizing the funds.

(b) The State Department of Health and the local governments are authorized to enter into joint financing agreements for the utilization of whatever federal grants may be available for any of the purposes cited in this section.

(c) The counties and the municipalities of the State are hereby authorized to appropriate general funds to participate in the program authorized by this section.

(d) In the event a special governmental agency is charged with providing sanitary facilities within a county or municipality, the local and State general funds cited in this section may be available to such agency for the purposes authorized by this section.

387C.

(a) Definitions: As used in this subsection:

1 "County plan" means a comprehensive plan and all amendments and revisions thereof for the provision of adequate water supply systems and sewerage and solid waste disposal systems and *a systematic program for the collection and disposal of litter, refuse, or other solid material from public and private property* and solid waste acceptance facilities throughout the county to include all towns, municipal corporations, and sanitary districts therein.

2 "Community sewerage system" means any system, whether publicly or privately owned, serving two or more individual lots for the collection and disposal of sewage or industrial wastes of a liquid
