

(iv) Delineate with all practical precision those portions of the county which community water supply systems, community sewerage systems and community solid waste disposal systems may reasonably be expected to serve within the succeeding ten-year period, and any portions in which the provision of such services is not reasonably foreseeable, taking into consideration all related aspects of planning, zoning, population estimates, engineering, and economics, and all State, regional, municipal and local plans;

(v) Establish procedures for delineating and acquiring, on a time schedule pursuant to subsection 4 (iv) above, necessary rights-of-way or easements for community water supply, community sewerage or community solid waste disposal systems or acceptance facilities.

(vi) Set forth a time schedule and proposed methods of financing the construction and operation of each programmed community water supply, community sewerage or community solid waste disposal system or solid waste acceptance facility, together with the estimated cost thereof.

(vii) Be submitted to official planning agencies having jurisdiction, including comprehensive planning agencies with area-wide jurisdiction, if such exist; for review as to consistency with programs of planning for the area; in Montgomery and Prince George's counties, be transmitted to the Maryland-National Capital Park and Planning Commission. The Sanitary Commission shall not thereafter submit the county plans to the governing bodies until it shall have received from said Park and Planning Commission its comment and recommendations on the proposed programs or until thirty days shall have passed, whichever shall be sooner. If the Park and Planning Commission shall recommend any changes, deletions, or designations for limited access in the proposed county plans, it shall state its reasons therefor, in writing, and the Sanitary Commission shall reexamine its proposed programs and give due weight to the recommendations of said Park and Planning Commission before final submission of the county plans, it being the intent of the General Assembly that the two commissions shall make every reasonable effort to reach agreement with respect to the county plans required by this section, but that the Sanitary Commission's right to make the final decision in the event of disagreement shall not be impaired, except as herein provided. In the annual review in Montgomery and Prince George's counties as set forth in subsection (d) 5 of this section, the procedures shall be followed as set forth herein; and

(viii) Include provision for periodic amendment or revision of the county plan.

(ix) Indicate the source of supply and the approximate amount to be withdrawn from waters of the State, and shall indicate the quantity and quality of wastes to be discharged into the waters of the State.

(x) *Designate the appropriate county agency charged with the responsibility of structuring a workable plan to keep the county environment free from trash, litter and solid waste, and to prevent scenic pollution of public and private property. THIS PLAN, WHERE PRACTICABLE, MAY INCLUDE THE USE OF PRISONERS FROM THE STATE CORRECTIONAL SYSTEM AND FROM COUNTY JAILS AND DETENTION CENTERS.*
