

H. Producer. Any person who controls one or more cows, from which a part or all of the milk is sold or offered for sale to a milk plant, receiving station, or transfer station.

I. Distributor. Any person who offers for sale or sells to another any pasteurized milk products.

J. Producer-Distributor. Any person who produces and distributes at retail his own raw milk products.

K. Processor. Any person who owns, operates or controls a milk plant.

L. Bobtailer. Any person who operates or controls a milk route and distributes pasteurized milk products which he purchases from a processor.

M. Secretary. The Secretary of Health and Mental Hygiene, or his designee.

N. Milk Truck Tank. A tank and its equipment used to transport milk.

O. Milk Truck Tank Operator. Any person in charge of a milk truck tank while it is receiving, transporting, or delivering producer milk or producer milk samples.

P. Adulterated Milk Products. Any milk product shall be deemed to be adulterated (1) if it bears or contains any poisonous or deleterious substance in a quantity which may render it injurious to health; (2) if it bears or contains any added poisonous or deleterious substance for which no safe tolerance has been established by State or Federal regulation, or in excess of such tolerance if one has been established; (3) if it consists, in whole or in part, of any foreign substance unfit for human consumption; (4) if it has been produced, processed, prepared, packed, or held under insanitary conditions; (5) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health; or (6) if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

Q. Misbranded Milk Products. Milk products are misbranded (1) when the container(s) bear or accompany any false or misleading written, printed or graphic matter; (2) when such milk products do not conform to their definitions as contained in this law or regulation; and (3) when such products are not labeled in accordance with this law or regulation.

R. Pasteurization. The terms "pasteurization," "pasteurized," and similar terms shall mean the process of uniformly heating every particle of milk product, holding in the heated state and cooling; in approved and properly operated equipment and under such conditions of temperature and time as the Secretary shall establish by regulation to render milk products safe and free of pathogens. Nothing in this definition shall be construed as barring any other process which has been recognized by the appropriate Federal Authority to be equally efficient in rendering milk products safe and free of pathogens provided such process is approved by the Secretary.
