

Service, and the costs and obligations assumed by the Service incidental to the transfer of such facility, and, to the extent deemed reasonable and practicable by the Service, charges shall also be based on but not necessarily limited to a formula reflecting the volume and characteristics of the wastes as they influence transportation, purification, final disposal, and time pattern of discharge.

7(e).

**Waste management** All contracts for projects shall be reviewed at least biennially by the Service and by the other contracting party, provided that a contract may be reviewed upon the request of either party at any time for the purpose or re-negotiating rates, fees, or other charges exacted by the Service.

11(a).

The Service is hereby authorized and empowered to provide, by resolution adopted by a majority of the board of directors, from time to time for the issuance of bonds and notes of the Service for the purpose of paying the cost of any one or more *water supply projects*, solid waste disposal projects or wastewater purification projects or any combination thereof acquired, constructed, reconstructed, rehabilitated, improved or extended by the Service and to provide funds to be paid into any debt service reserve funds.

25(a).

Except as otherwise provided by this article, and subject to the provisions of Article 41, Section 235(b) of this Code, the Service is hereby authorized to adopt, formulate, and revise from time to time, and enforce rules and regulations necessary for the regulation of its internal affairs and for the use and operation of its projects, and of any other laws the administration of which is vested in the Service; provided, however, that no such rule or regulation concerning the use or operation of a project shall be in conflict with any rule or regulation of the State Department of Health. The Service may limit or regulate *water supply* or liquid waste service, refuse collection and disposal service, and storm and surface water drainage service, on a temporary basis in any area or to any premise served by Service projects, as the exigencies of the occasion and the protection of its systems require. The Service shall make such regulations consistent with law as it may deem necessary for the public safety, health, comfort or convenience, in the construction, operation, maintenance, expansion, relocation, replacement, renovation, and repair of its *water supply*, waste water purification and solid waste disposal projects.

28.

This article shall constitute full and complete authority, without regard to the provisions of any other law for the doing of the acts and things herein authorized, and shall be liberally construed to effect the purposes hereof; provided, however, that nothing herein contained shall be taken as restricting any control which the Department of Health and Mental Hygiene and the Department of Natural Resources, or any of the departments or agencies included therein,
