

fallow time on Howard County Channels. (j) At those daily time segments during which no signals are transmitted on Education Channels, which shall be allocated for educational and instructional use by appropriate education authorities, the Grantee may utilize such channels for any purpose consistent with the provisions of this Act, and FCC regulations. Upon written request of the Grantee the appropriate education authorities shall notify the Grantee in writing as far in advance as is practical of any contemplated open time, if any, on Educational Channels. (k) In the event of an emergency situation, as determined by the Executive or Council, Howard County may interrupt signals otherwise being distributed by the Grantee for the delivery of signals necessitated by such emergency. (l) In the operation of its Community Antenna Television System the Grantee shall not interfere in any way with the signals of any electrical system located in a building which houses any part of the Community Antenna Television System, and shall not deprive an inhabitant of any building, by contract or otherwise, of any existing right he may have to utilize an individual or master antenna for the purpose of receiving television signals. (m) The Grantee shall furnish to its subscribers and customers for all services, with no discriminatory or unreasonable delay in the Grantee's installation of full service within the various neighborhoods in the District, the best possible signals available under the circumstances existing at the time, to the satisfaction of the Executive and shall provide quality reception of its Basic Service to each subscriber so that both sound and picture are produced free from visible and audible distortion and ghost images on standard television receivers in good repair. (n) The Grantee shall be permitted to engage in pay television subject to all rules and limitations now and hereinafter to be promulgated by the FCC. The compensation payable to Howard County shall be as set forth in this Act. (o) In the operation of the Company Channel the Company shall provide, on a non-discriminatory basis, a reasonable amount of free time to legally qualified candidates for public office; such use shall be in accordance with FCC rules and regulations. (p) Without charge the Grantee shall provide all facilities, including studios and equipment, necessary to produce and to pick up the one or two way signals of Education Standard and/or non-standard Channels and/or locations and transmit such signals throughout the Community Antenna Television System, or to a preselected number of locations as the Executive and Education Authorities may from time to time select, from a studio or studios whose location in the District shall be designated by the Executive and Education Authorities for consultation with the Grantee. (q) No additional service or two way capability which infringes upon the privacy of individuals shall be permitted.

14.708. Conditions of Street Occupancy.

(a) All transmissions and distribution structures, line and equipment erected by the Grantee within Howard County shall be so located as to cause minimum interference with the proper use of streets, alleys and other public ways and places and to cause minimum interference with the rights and reasonable convenience of property owners who join any of said streets, alleys or other public ways and places. The CATV system shall be constructed and operated in compliance with all adopted local and national construction codes.

(b) The installation of the CATV system shall be in accordance with the requirements of the National Electrical Safety Code of the American Insurance Association (successor to National Board of Fire Underwriters) and all applicable laws, ordinances, rules, regulations of the State of Mary-
