

1. That the system is installed and remains capable of using all band equipment and of passing the entire VHF and FM spectrum that it shall have the capability of converting UHF for the distribution to subscribers on the VHF band and that it shall have a two-way capacity capable of transmitting and receiving digital, signalling, audio and video signals in keeping with the state of the art; and

2. That the system as installed is capable of transmitting and passing the standard color television signals without the introduction of material degradation on color fidelity and intelligence; and

3. That the system is designed and rated for 24-hour-a-day continuous operation; and

4. That the system is capable of and will produce a picture upon any subscriber's television screen in black and white or color (provided the subscriber's television set is capable of producing a colored picture), that is, undistorted and free from ghost images and sets in good repair, and that the television transmission is satisfactory, in any event, the picture produced shall be as good as the state of the art allows; and

5. That the system is capable of and will receive, transmit or distribute signals of adequate strength to produce good pictures with good sound at all television receivers of all subscribers and to all other designated locations without causing cross-modulation in the cables or interfering with other electrical or electronic systems or the reception of other television or radio receivers in the area not connected to the system.

(b) The Grantee shall render efficient service, make repairs promptly and interrupt service only for such good cause and for the shortest time possible. Such interruptions insofar as possible, shall be preceded by notice and shall occur during periods of minimum use of the system.

(c) The Grantee shall maintain at least one office in Howard County which shall be open during regular business hours, have a listed telephone, and shall also be so operated that complaints and requests for repairs or adjustments may be received at any time.

14.714. Grantee's Duty to Remove its Properties from the Public Streets.

(a) Following the Grantee's commencement of service through and over its Community Antenna Television System, the Grantee shall promptly remove from the public streets where its properties are located, all or any part of its facilities so located, when one or more of the following enumerated conditions occur:

1. The Grantee ceases to use any part, or all, of its Community Antenna Television System for a continuous period of twelve (12) months from the date of said occurrence;

2. The Grantee fails to construct said system as hereinbefore and hereinafter provided;

3. The franchise is terminated or revoked pursuant to notice as provided in Section 14.723 hereof.

Provided the Grantee shall be entitled to receive notice in writing from Howard County setting forth one or more of the occurrences hereinabove provided, and that the Grantee shall have ninety (90) days from the date upon which said notice is received to remove said properties hereinabove required.
