

installation, repair or design of all types of electrical equipment and apparatus, all coming within the purview of and subject to all provisions of this Article, for a period of not less than four (4) years.

(ii) An applicant for a master electrician's limited license shall pass the examination of the Board as to his qualifications and knowledge of the field or fields of the particular specialty in which he requests a license. An applicant may be licensed hereunder for a particular type of electrical installation or may be licensed for all types or as many types of limited electrical installations as defined herein and for which he shall be found qualified by the Board. The type of limited licenses shall be set forth in regulations of the Board. Particular license classifications shall include, without limiting, licenses for electrical connections and circuits to air conditioning, elevators, gasoline pumps, automatic heating furnaces whose principal operation is derived from fuel oil, gas, steam or coal, lighting, illuminating signs, and similar specialties, and electrical repair and maintenance work, in plants, factories, apartment complexes and any public occupancy employing maintenance forces, fire alarm systems and electronic equipment employing the use of electrical current or connection. The conditions of the license shall appear plainly on the license.

(iii) An applicant for a "master electrician's license" or "limited license" shall furnish such information as shall be required on an application form approved by the Board as to his character references, financial responsibility, and his experience, training, and education in the profession or business of electrical construction or maintenance, installation, repair or design of all types of electrical equipment and apparatus, or of the particular type of installation for which a limited license is requested, all coming within the purview of and subject to all provisions of this Article.

(c) It shall be the duty of the Director upon receipt of an application to investigate the character, experience, training, and education of the applicant and to provide such information to the Board. Before the issuance of a license, it shall be the further duty of the Director to ascertain from reliable sources the applicant's record of compliance with the laws of the State of Maryland and Montgomery County. The Board may request further investigations, and conduct written or oral examination of the applicant, at its discretion. On the basis of the foregoing information, it shall be the Board's duty, within sixty (60) days after submission of an application for a business license, and/or a master electrician's license and/or a master electrician's limited license, unless the time is extended for good cause, to certify to the Director whether the applicant is qualified to be licensed and to notify the applicant. In no case shall denial of certification be unreasonable and the denial shall be in writing, stating the reason, and shall be personally served or mailed by certified
