

ing, the person making the installation shall notify the Department of Inspection and Licenses and such installation shall not be concealed until it has been inspected and approved by the Department; provided, that on large installations where the concealment of electrical equipment proceeds continuously the person installing the same shall give the Department notice thereof so that inspections may be made periodically during the progress of the work. The Department of Inspection and Licenses shall have the authority to remove or require the removal of any structure that prevents proper inspection of any electrical equipment.

83-31. Inspection of Prefabricated or Modular Units—Fees:

The fee for inspection of prefabricated units by inspectors of the Department of Inspection and Licenses shall be fixed and may be revised from time to time by the County Executive at an amount not to exceed the reasonable cost of conducting such inspections.

83-32. Cut-in Certificates.

No electric light or power company shall supply electricity or power to any electrical equipment, for the installation of which a permit is required under this Article, and no person shall connect any such electrical equipment to a supply of electricity or power, except in accordance with a cut-in certificate issued by the Department of Inspection and Licenses.

If after the inspection the Department finds the installation to be in conformity with the provisions of this Article, it shall issue a cut-in certificate therefor, authorizing the use of the installation and connection to the supply of electricity and power, and shall send such certificate to the electric light or power company supplying the same. Such certificates may be issued for an entire installation or part thereof.

Temporary cut-in certificates shall be issued for temporary installations authorized pursuant to Section 83-11 of this Code and such certificates shall set forth their expiration date, shall expire upon such date unless extended, and shall be cancelled by the Director of the Department at any time if the installation is not maintained as required by Sec. 83-11 of the Code.

83-33. Defective Installations and Equipment.

If upon inspection any installation for which a permit is required under this Article is found to be in violation of the provisions of this Article, the Department of Inspection and Licenses shall notify the holder of the permit of the nature of such violation in writing and the same shall be corrected within ten (10) days after such notice or such other period of time as may be specified by the Department.
