

**300-24.** Electric wires over water. Except as otherwise provided in this Chapter, no overhead electric wire shall pass over any body of water, whether natural or man-made, nor shall any overhead wire be closer than ten feet from such body of water, measured horizontally.

**83-62.** Section 390-4 and Section 390-5 added.

New Sections 390-4 and 390-5 are hereby added to the 1968 National Electrical Code adopted by this Chapter to follow immediately after Section 390-3 thereof, and to read as follows:

**390-4. Certificate of Compliance Required.** The manufacturer of any mobile homes, prefabricated or modular dwelling, building or other structure shall for each such dwelling, building or other structure for sale and/or use in Montgomery County execute a certificate assuring that all electrical fixtures, wiring and electrical installations therein are in compliance with the provisions of the Montgomery County Electrical Code and the National Electrical Code adopted by and in force in Montgomery County. It shall be unlawful to import any mobile homes prefabricated or modular dwelling, building or other structure into Montgomery County or to sell any such dwelling, building or other structure in Montgomery County for which a certificate of compliance has not been executed in accordance with this Section.

**390-5. Inspection of Mobile Homes, Prefabricated Dwellings, Buildings, Etc.**

(a) Montgomery County is authorized to inspect mobile homes, prefabricated or modular dwellings, buildings or other structures intended for importation to or sale or use in Montgomery County at the place of manufacture and prior to the concealment of electrical installations in any such mobile homes, prefabricated or modular dwelling, building or other structure. The Director of the Department of Inspection and Licenses is authorized to authorize electrical inspections of mobile homes, prefabricated or modular dwellings by any qualified inspector employed by the County or any qualified individual authorized to conduct such inspections by Underwriters' Laboratories, Inc. or any similar organization not affiliated with a manufacturer.

(b) Every manufacturer of mobile homes, prefabricated or modular dwellings, buildings or other structure, building or manufacturing such dwellings, buildings or other structures for importation to or sale or use in Montgomery County shall, prior to the concealment of electrical installations in such dwellings, buildings or other structures, give written notice to the Department of Inspection and Licenses for Montgomery County of the manufacture of such dwellings, buildings or other structures. Montgomery County shall, upon receipt of such notice, notify the manufacturer of a scheduled inspection or authorize the concealment of the electrical installation.
