

(h) An operating permit shall be issued by the approving authority upon a satisfactory finding that the swimming pool meets the requirements of this Chapter. A permit shall remain in force until April 30 in the year following issue unless prior revoked or suspended.

(i) The operating permit may be revoked for repeated or continuing violations of the requirements of this Chapter, provided that the approving authority has given the owner notice in writing of the violations and opportunity for hearing before the approving authority to show cause why the revocation of the permit should not occur. Request for hearing, however, shall not entitle the owner or operator to continue operation of the swimming pool if the approving authority finds any conditions present as in paragraph (j) or that the safety of the users of the pool requires it be closed.

(j) Operating permits for a public swimming pool may be summarily suspended and the pool ordered closed by the approving authority upon a finding of any of the following conditions :

1. The pool is being operated without adequate or responsible supervision.

2. The turbidity of the water in the pool visually obscures the view of the main drain or the bottom of the pool when filled to its usual capacity.

3. The level of the disinfectant in the pool is less or greater than specified in the manual on public swimming pool operations for adequate disinfections.

4. The filtered water is not being delivered to the swimming pool for a period exceeding one hour during the use of the pool.

5. The bath house is not usable.

6. The automatic disinfectant feeder has been inoperative in excess of twenty-four hours.

105-5. Inspections.

The approving authority shall inspect or cause to be inspected, from time to time during reasonable hours, any part of a public swimming pool for the purposes of determining compliance with the provisions of this Chapter. No person shall obstruct or deny such access to a properly authorized representative of the approving authority.

(a) Any person constructing a public swimming pool shall cause the inspection to be made by the approving authority of any piping and equipment which is to be permanently concealed prior to such concealment.
