

188C.

(10) If it bears [on] OR contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; provided, however, that to the extent that compliance with the requirements of this subsection is impracticable, exemptions shall be established by regulations promulgated by the Secretary. The provisions of this subsection and of subsections (8) and (12) with respect to artificial coloring shall not apply to butter, cheese, or ice cream.

387D.

(a) Submission of applications to Washington Suburban Sanitary Commission. In those districts of the State of Maryland, established by the Commissioner of Health with the approval of the Secretary of Health and Mental Hygiene under § 6 of this Article 43, which follow the county lines of and embrace the counties of Prince George's and Montgomery, neither the State Department of Health and Mental Hygiene, any deputy state health officer, or local health department may issue or approve a permit for the installation and utilization of an individual septic tank or private septic system unless the application [therefore] THEREFOR has first been submitted to the Washington Suburban Sanitary Commission for its review and comment, but the submission of the application to the Commission for review and comment shall not be required if the septic tank permit application is for property in an area shown on the pertinent county's ten-year sewerage plan, adopted pursuant to § 387C of Article 43 of the Annotated Code of Maryland, as an area in which a public sewerage system is not contemplated within 10 years, such area currently being denominated Area 5 in the Prince George's County ten-year sewerage plan and Category III in the current Montgomery County ten-year sewerage plan, nor shall the permit issue unless the other conditions for issuance specified in this section have been met. The Commission shall review and comment in writing to the health officer submitting an application for septic tank or for connection to private septic tank systems, with the review and comments to include a determination of the location of the nearest public sewer collection line, capacity, feasibility, cost, and engineering conditions or requirements for extension thereof, and an estimate of time of extension, if available. If more than one property in an area or subdivision is proposed for development, or reasonably expected to be developed, with the use of private septic tank or a private septic system, the health officer shall indicate that fact to the Commission with the submission of the initial septic tank permit, or with the submission of such permit after that knowledge reasonably becomes known to the health officer, and in such cases the Commission may group the applications for review and comment purposes. If the Commission does not respond in writing to the submitting health officer within 30 days of the Commission's receipt of the health officer's submittal, the health officer may proceed to process and issue the permit, if otherwise appropriate, without further regard to this subsection (a).

424.

Every act or omission designated as a misdemeanor in §§409-427, unless otherwise stated, shall be punishable in a court of competent jurisdiction sitting in the county within which such offense is committed, and action shall be brought by warrant or indictment upon the oath or information of any municipal official, or any agent of municipal authorities, and the offender shall, upon conviction, be subject to a fine not exceeding \$100 or 30 days in the county jail, or both, in the discretion of the court. Where such act or omission is of a continuing nature, and is persistent in [1, in] [violations] VIOLATION of the provisions of §§ 409-427, or of any rule or regulation formulated thereunder, a conviction for one offense shall not be a bar to a conviction for a continuation of such offense subsequent to the first or any subsequent conviction.
