Section 17-605. Water connection charge.

(b) The user connection charge shall be imposed with respect to every connection to the water system of the county which charge shall be [one hundred sixty dollars] TWO HUNDRED DOLLARS (\$200.00) for a three-fourths inch connection with a five-eighths inch meter, and in cases where larger size connections and meters are necessary, the user connection charge shall be the actual cost of such connection as determined by the department of public works; BUT IN NO EVENT SHALL SUCH CHARGE BE LESS THAN THE MINIMUM CHARGE.

[(d) The capital connection charge for single family dwelling units shall be [three] FOUR hundred dollars (\$400.00). For each structure or group of structures containing more than one single family dwelling unit including apartment houses, rental townhouses and mobile home parks containing spaces for more than one mobile home, the capital connection charge shall be [one] FOUR hundred [eighty] dollars (\$400.00) multiplied by the number of such units or spaces.

(e) The capital connection charge for properties used for commercial or industrial purposes, including motels and restaurants, shall be [three] FOUR hundred dollars (\$400.00) for each fourteen thousand five hundred square feet of property, or fraction thereof so used.

(g) Except in the case of existing structures, the water connection charge shall be paid in full at the time application for connection is made. With respect to existing single family dwelling units, the USER connection charge shall be paid in full upon the date application for connection is made, or at the option of the applicant, [in twelve (12) monthly installments, or in one (1) installment,] on or before
