

(e) Subject to the approval of the board of trustees, in addition to the contributions deducted from compensation as hereinbefore provided, any member may redeposit in the Annuity Savings Fund by a single payment or by an increased rate of contribution an amount equal to the total amount which he previously withdrew therefrom as provided in this article, or any part thereof; or any member may deposit therein by a single payment or by an increased rate of contribution an amount computed to be sufficient to purchase an additional annuity which, together with his prospective retirement allowance, will provide for him a total retirement allowance not in excess of two thirds of his average final compensation at the age of 60 or after 30 years of creditable service, whichever would first occur. In addition to the contributions hereinbefore provided, subject to such conditions as may be established by the board of trustees, any member may, in accordance with a contract with his employer, have further contributions at a fixed percentage of two percent or more, but not to exceed twenty percent of his compensation made on his account, either by a reduction in his salary or in lieu of an increase in his compensation. The cost of administering annuities qualifying under § 403 (b) of the Internal Revenue Code as amended from time to time, shall be provided from the funds invested in such annuities. Such additional amounts so deposited shall become a part of his accumulated contributions except in the case of disability retirement, when they shall be treated as excess contributions returnable to the member in cash or as an annuity of equivalent actuarial value.

(f) The accumulated contributions of a member withdrawn by him, or paid to his estate or to his designated beneficiary in event of his death, as provided in this article, shall be paid from the Annuity Savings Fund. Upon the retirement of a member his accumulated contributions shall be transferred from the Annuity Savings Fund to the Annuity Reserve Fund.

[(2) The Annuity Reserve Fund shall be the fund in which shall be held the reserves on all annuities in force and from which shall be paid all annuities and all benefits in lieu of annuities, payable as provided in this article. Should a beneficiary retired on account of disability be restored to membership, his annuity reserve shall be transferred from the Annuity Reserve Fund to the Annuity Savings Fund and credited to his individual account therein.]

[(3)] (2) (a) The [Pension] Accumulation Fund shall be the fund in which shall be accumulated all reserves for the payment of all pensions and other benefits payable from contributions made by the State and from which shall be paid ALL RETIREMENT ALLOWANCES AND the lump sum death benefits payable from said contributions. Contributions to and payments from the [Pension] Accumulation Fund shall be made as follows:

(b) On account of each member there shall be paid annually into the [Pension] Accumulation Fund by the State for the preceding fiscal year an amount equal to a certain percentage of the annual earnable compensation of each member to be known as the "normal contribution," and an additional amount equal to a percentage of his annual earnable compensation to be known as the "accrued liability contribution." The rates per centum of such contributions shall be fixed on the basis of the liabilities of the retirement system as shown by actuarial valuation. [Until the first valuation the normal contribution shall be two and seven hundredths per centum, and the accrued liability contribution shall be one and ninety-four hundredths per centum, of the annual earnable compensation of all members.]

(c) On the basis of regular interest and of such mortality and other tables as shall be adopted by the board of trustees, the actuary engaged by the board to make each valuation required by this article during the period over which the [deficiency] ACCRUED LIABILITY contribution is payable, immediately after
