REVISOR'S NOTE: This section is new language. It is added by the Legislative Council to provide for recording liens of the county or governmental unit in order to protect innocent third parties. At present, certain liens against persons are created in favor of the county or governmental unit pursuant to proposed section 8-1205.

The new language is derived largely from Article 63, sections 46 - 50 of the Code dealing with hospital liens.

With this new section, section 8-1205, which creates the liens, is changed only to the extent that the lien is not effective unless recorded and indexed.

The cost of maintaining the lien docket is borne by the county or governmental unit which seeks to have it recorded and indexed.
