

reference the provisions of section 151(c). The definition of body booting is proposed for deletion because it appears as section 10-601(d). The definition of body booter is proposed for deletion as superfluous. The provision requiring the rig to be licensed also is proposed for deletion in light of proposed section 10-607 which sets forth applicable licensing requirements. References to stationary blinds and blind sites are added in light of the definitions appearing in proposed section 10-601(b) and (c). The present requirement in subsection (b) that a number of decoys accompany the rig is proposed for deletion because the Legislative Council felt the provision served no real purpose. The last sentence is proposed for deletion because the provisions of this section are applicable to the Susquehanna Flats in Harford and Cecil counties. In subsection (e) new language is added to indicate that the shoreline may be state owned and that this provision is subject to the exceptions of section 10-620.

The only other changes made are in style.
