

REVISOR'S NOTE: Subsections (a) and (b) presently appear as Art. 66C, §474(a) of the Code. The present reference to "brand" is proposed for deletion, and "product name" is substituted in this and subsequent sections because soil conditioners do not have "brands".

Subsection (c) is new language added to codify present department practice. The annual registration fees prescribed by §6-208 clearly indicate that each registration terminates within a year.

Subsection (d) presently appears as Art. 66C, §474 (b) and (c) of the Code.

The only other changes made are in style.
