

LOCAL INSPECTOR, OR BY THE PERSON IN BALTIMORE CITY CHARGED WITH THIS DUTY, IF THE SCALES ARE LOCATED THERE;

(2) HE WEIGHS THE VEHICLE SO AS TO DETERMINE THE CORRECT NET WEIGHT OF THE FUEL; AND

(3) ALL THE WHEELS OF THE VEHICLE, TRACTOR, TRAILER, OR SEMITRAILER TRANSPORTING THE SOLID FUEL ARE ON THE SCALE AT THE SAME TIME; HOWEVER, IF THE TRACTOR IS DISCONNECTED FROM THE TRAILER OR SEMITRAILER AT THE TIME OF WEIGHING, THE TRAILER, OR SEMITRAILER MAY BE WEIGHED WITHOUT THE TRACTOR.

REVISOR'S NOTE: This section is new language derived from Art. 97, §67 of the Code. The present reference to the Division of Weights and Measures of the Department of Public Works in Baltimore City is omitted and new language is added to allow the title of the person charged with this duty to change in the future without necessitating further amendments to this provision. The present provision that requires the weighmaster to weigh the vehicle unloaded before he weighs it loaded is revised to accommodate the weighing of vehicles brought into the State while loaded. The present provision exempting the weighing of a vehicle containing solid fuel previously weighed on a mine scale previously approved by the Secretary is omitted because it is unnecessary in light of the revision of paragraph (2).
