- (6) INVESTIGATE AND RECOMMEND PLANS AND POLICIES FOR PROTECTION OF THE WATERFRONT OF THE STATE AGAINST EROSION AND DEPOSIT, AND CARRY INTO EFFECT PLANS FOR DEVELOPMENT OF THE WATERFRONT PROPERTY OF THE STATE.

REVISOR'S NOTE: This section presently appears as Article 66C, section 16(b) of the Code. Paragraph (6) is proposed for deletion as obsolete since the survey does not directly participate in the examination process of certificates of competence. This function is performed by the Director of the Bureau of Mines and the Mine Examining Board. The survey does have over-all supervisory authority which is already stated in paragraph (4) of this section. The introductory paragraph to this subsection is proposed for deletion and transferred to proposed section 2-203 to emphasize and differentiate between the functions of the survey and the director's role. The only other changes made are in style.

2-203. DUTIES OF DIRECTOR.

THE DIRECTOR OF THE SURVEY SHALL EXERCISE ANY POWER OR DUTY AND GENERAL SUPERVISION OVER MATTERS CONFERRED UPON THE SURVEY BY LAW, SUBJECT TO THE AUTHORITY OF THE SECRETARY.

REVISOR'S NOTE: This section is new language derived from the introductory paragraph to Article 66C, section 16(b) of the Code. It has been transferred to emphasize and differentiate the functions of the survey and the role of the director.
