

concerning the dam and its construction is proposed for deletion as obsolete since it does not exist.

The first provision of present subsection (c) relating to nonresidents of the county and subsection (d) in its entirety are proposed for deletion in light of Bruce v. Director, discussed in the revisor's note to section 4-703, supra. The second provision has been retained as subsection (d) since its subject matter still is operative. The reference to "crocus" is proposed for deletion and "croakers" is substituted therefor because there is no fish known as a "crocus".

The only other changes made are in style.
