

practice surveying (in counting years of experience, the Board at its discretion may give credit, not in excess of one year, for satisfactory graduate study in surveying); and the successful completion of an eight-hour written examination in the fundamentals of surveying, and of an eight-hour written examination in the principles and practice of surveying. Where evidence presented in and with the application does not appear to the Board to warrant the admission to the examination, the applicant may be required to present further evidence for the consideration of the Board; or

(2) Graduation from an engineering or land surveying curriculum of four scholastic years or more or their equivalent other than the ones approved by the Board; a specific record of an additional six years or more of experience in surveying work of a character satisfactory to the Board and which indicates to the Board that the applicant may be competent to practice land surveying; and the successful completion of an eight-hour written examination in the fundamentals of surveying designed to show knowledge and skill equivalent to that obtained through graduation from an approved four scholastic year engineering curriculum and of an eight-hour written examination in the principles and practice of land surveying. Where the evidence presented in and with the application does not appear to the Board to warrant the admission to the examination, the applicant may be required to present further evidence for the consideration of the Board; or

(3) A specific record of at least twelve years of experience in land surveying of a character satisfactory to the Board indicating that the applicant may be competent to practice land surveying; provided, however, that the [[applicant is at least thirty-five years of age, that the]] evidence of such practice presented by the applicant is satisfactory to the Board, and that the applicant successfully completes an eight-hour written examination in the principles and practice of land surveying. Where the evidence presented in and with the application does not appear to the Board to warrant the admission to the examination, the applicant may be required to present further evidence for the consideration of the Board.

(d) As a land surveyor-in-training:

(1) Graduation from a surveying or engineering curriculum of four scholastic years or more approved by the Board and [passing a] THE SUCCESSFUL COMPLETION OF AN EIGHT-HOUR written examination in the fundamentals of surveying; or
