

[and] sanitary districts, PRIVATELY OWNED FACILITIES AND LOCAL, STATE AND FEDERAL AGENCIES HAVING EXISTING, PLANNED OR PROGRAMMED DEVELOPMENT within the county to the extent that such inclusion shall promote the public health, safety and welfare, and county plans may incorporate all or part of subsidiary plans covering multicounty areas; provided that such subsidiary plans are approved by the governing body by each county concerned.

3. In accordance with applicable regulations adopted by the State Board of Health and Mental Hygiene pursuant to subsection (c) of this section, each county plan shall delineate those areas where—

(I) Community water supply systems must be provided;

(II) MULTI-USE WATER SUPPLY SYSTEM MAY BE INSTALLED;

[ (II) ] (III) Individual water supply systems may be installed and used during an interim period, pending the availability of a programmed community water supply system. In Harford County, within the areas outlined in the county plan to receive a community water supply system within ten years, any new subdivisions approved after June 1, 1972, must have a county-approved water distribution system as a prerequisite for the issuance of building and zoning permits.

[ (III) ] (IV) Individual water supply systems may be installed and used for an indefinite period. In Harford County, within the areas outlined in the county plan to receive a community water supply system within ten years, any new subdivisions approved after June 1, 1972, must have a county-approved water distribution system as a prerequisite for the issuance of building and zoning permits.

[ (IV) ] (V) Community sewerage systems must be provided;

(VI) MULTI-USE SEWERAGE SYSTEM MAY BE INSTALLED;

[ (V) ] (VII) Individual sewerage systems may be installed and used during an interim period, pending availability of a programmed community sewerage system. In Harford County, within the areas outlined in the county plan to receive community sewerage system within ten years, any new subdivisions approved after June 1, 1972, must have a county approved sewerage collection system as a prerequisite for the issuance of building and zoning permits.
