

4-109.

(c) The adulteration and misbranding provisions of this subtitle, other than [than] the requirement of the inspection legend, apply to any article which is not required to be inspected under this section.

4-201.

(o) Any poultry product is "misbranded" if:

(1) Its labeling is false or misleading in any particular;

(2) It is offered for sale under the name of another food;

(3) It is an imitation of another food, unless its label bears, in type of uniform size and prominence, the [work] WORD "imitation" and immediately after it, the name of the food imitated;

(4) Its container is made, formed, or filled so that it is misleading;

(5) It does not bear a label showing (i) the name and place of business of the manufacturer, packer, or distributor and (ii) an accurate statement of the quantity of the product in terms of weight, measure, or numerical count. Under clause (ii) of this paragraph, reasonable variations may be permitted, and exemptions for small packages or articles not in packages or other containers, may be established by Departmental rules and regulations;

(6) Any word, statement, or other information required by, or under authority of, this subtitle to appear on the label or other labeling is not placed prominently and conspicuously on it, as compared with other words, statements, designs, or devices in the labeling, and in terms that do not render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

(7) It purports to be or is represented as a food for which a definition and standard of identity or composition has been prescribed by Departmental rules and regulations under § 4-209, unless (i) it conforms to the definition and standard, (ii) its label bears the name of the food specified in the definition and standard and as may be required by the rules and regulations, and (iii) its label bears the common names of optional ingredients, other than spices, flavoring, and coloring, present in the food as required by rules and regulations;
