No. 26

(Senate Joint Resolution 47)

A Senate Joint Resolution concerning

Coastal Zone Programs

FOR the purpose of requesting the Department of Natural Resources to prepare a report to be presented to the Legislative Council by October 15, 1975, describing the requirements for development of the coastal zone program that would meet the requirements of the federal coastal zone management act of 1972.

Off-shore and on-shore development is a source of great concern both to the members of this Body and to members of the general public. Any consideration of this area must take into consideration the declining fisheries, the recreational impact, and the continuing spoil dredging problem [[that results from dredging other areas.]]

This State needs a comprehensive report describing the requirements for development of the coastal zone
