

519) But not finding the bounded Tree nor continued or course —  
 two hundred paces which brought us to a bounded red  
 oak which the said Col. Beals did declare upon his  
 Oath to be the bounded line of Perrywood and the Land  
 called Golsby and the Land of Wm Ray called Beals Hunting  
 Quarters as also the bounded line of Majors Lott from thence  
 100 Paces <sup>East</sup> and by South but found the same to run into  
 the Land of Wm Ray being a more ancient Survey therefore  
 we allowed our said course and run with the said Rays Land  
 East north east four degrees Easterly two hundred and ten paces  
 to the bounded red oak being the bounded line of Wm Rays  
 Land as also a Tract of Land of John Demall and thence we  
 continued our course East north East four degrees North by  
 two hundred paces which brought us to a bounded white oak  
 which Col. Beals did declare to be bounded Tree of John Demall  
 As also Majors Lott from thence we run South according to  
 Patent by paces and thence East north east one hundred  
 paces — And thence with a straight line to the first bounded Tree —  
 In running of which Line by the best information we  
 could have we run into no former nor more ancient  
 Surveys Given under our Hands and Seals this 24th  
 day of September Anno 1700
