

repaired and placed in its original condition as nearly as practicable;

(f) Ingress and egress.— To designate the locations, and establish, limit and control such points of ingress to and egress from each motorway as may be necessary or desirable in the judgment of the Commission to insure the proper operation and maintenance of such motorway, and to prohibit entrance to such motorway from any point or points not so designated;

(g) Contracts; employment of engineers, attorneys, etc.— To make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this subheading, and to employ consulting engineers, attorneys, accountants, construction and financial experts, superintendents, managers, and such other employes and agents as may be necessary in its judgment, and to fix their compensation; provided, that all such expenses shall be payable solely from the proceeds of revenue bonds issued under the provisions of this subheading or from revenues;

(h) Grants and contributions.— To receive and accept from any federal agency grants for or in aid of the construction of any project, and to receive and accept aid or contributions from any source of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such grants and contributions may be made; and

(i) Other necessary acts.— To do all acts and things necessary or convenient to carry out the powers expressly granted in this subheading.

§9. [§ 124.] Incidental powers.

The Commission shall have authority to construct grade separations at intersections of any project with public roads and State highways and to change and adjust the lines and grades of such roads and highways so as to accommodate the same to the design of such grade separation. The cost of such grade separations and any damage incurred in changing and adjusting the lines and grades of such roads and highways shall be ascertained and paid by the Commission as a part of the cost of such project.

If the Commission shall find it necessary to change the location of any portion of any public road or State highway affected by the construction of any project, it may cause the same to be reconstructed at such location as the Commission shall deem most favorable. The cost of such reconstruction and any damage incurred in changing the location of any such road or highway shall be ascertained and paid by the Commission as a part of the cost of such project.

In addition to the foregoing powers the Commission and its authorized agents and employees may enter upon any lands, waters and premises in the State for the purpose of making surveys, soundings, drillings and examinations as it may deem necessary or convenient for
