

so. However, a [licensee] LICENSE may not be required to sell or dispose of clams in any retail market, restaurant, or other establishment where clams are sold or served for immediate use or consumption, when the clams are purchased from a person possessing a dealer's or shipper's license. The fee for this license may not exceed \$25 for a person who has resided in the State for one year immediately preceding his application for a license, or \$100 for a nonresident.

4-1116.

(b) Any lessee desiring to catch oysters from [his] ANY leased oyster bottom by dredge or handscrape shall apply annually to the Department for a special license, and shall pay a fee of \$15. However, a special license is not required in Worcester County.

8-402.

(d) By July 1, 1976, the Department shall prepare and complete an inventory and study of the river stretches and related shorelines of those rivers included in subsection (a) of the [wild and] scenic AND WILD rivers system, except Deer Creek in Harford County. The inventory and study shall evaluate the river and its shorelines as a water, agricultural, and scenic or wild resource. The inventory and plan shall be made in consultation with every affected governmental unit of any county where the affected river is located. Upon completion of any part of the inventory and study, the Department shall submit it with any appropriate recommendations to the governing body of every county where the affected river is located, for their approval and recommendations, and to the next regular session of the General Assembly.

(e) By July 1, 1978, the Department shall inventory and study every other river and related shoreline in the State and identify the rivers and their related shorelines or portions of them eligible for inclusion into the system as either a [wild or] scenic OF WILD river. Upon completion of any part of the inventory and study, the Department shall submit it with any recommendations for additions to the [wild and] scenic AND WILD rivers system to the governing body of every county where an affected river is located, for their approval and recommendations, and to the next regular session of the General Assembly. For the purposes of this inventory and study, (1) a scenic river means a free flowing river whose related shorelines are predominately forested, agricultural, grassland, marshland, or swampland with a minimum of development for at least two miles of the river length, and (2) a wild river means a free flowing river whose related shorelines are undeveloped, inaccessible except by trail, or predominately primitive in a natural state for at least four miles of the river length.
