

commission, or any approved change therein, the commission, if and when such conduit, main, pipe, or pole, or other structure interferes with the construction of or operation of its water or sewerage system, or other works, may remove the conduit, main, pipe, pole, or other structures or change the location thereof at the cost and expense of the party [so] putting them in, or their heirs, assigns, or successors, and without any liability upon the part of the commission for damage that might be done to the same by reason of the commission's operation in constructing or maintaining its systems or works. Any violation of the provisions of this section is a misdemeanor punishable under section [10A-21] 10A-23.

10A-12.

No sewerage, water, or drainage system or extension thereof serving two or more properties in the sanitary district may be constructed by any private owner without the prior approval of the commission. If upon application for the construction or extension of any such system the commission determines that the construction or extension is inexpedient or impracticable at that time, owing to the remoteness from its general system or other considerations, the applicant may build and operate the system or extension thereof at its own expense; but it shall be constructed only under [such] plans and specifications [as] WHICH have been submitted to and approved by the commission, and its maintenance and operation shall be under the general control of the commission. No such system or part thereof or no water main, sewer, storm drain, water purification or sewage treatment plant or no connection with any of them shall be constructed or installed except as in this section provided, and any violation of this provision shall be a misdemeanor punishable under section [10A-21] 10A-23 of this chapter. The applicant for the construction or extension of any such privately-owned system shall bear the reasonable costs that the commission may incur for the review and approval of any such plans and for the supervision by the commission of the maintenance and operation of [such] THE system. All construction and operating records, including cost records, shall be filed with the commission, which shall be empowered at any time to take over [said] THE system or part thereof or said water main, sewer, storm water drain, water or sewerage treatment plant or connection with any of them in the same manner as provided under section [10A-3] 10A-4. Nothing in this section impairs the rate making powers of the public service commission nor eliminates the requirements of the law for the approval of the department of health in the construction and maintenance of sanitary facilities. No private sewerage, water, or drainage systems or extensions thereof authorized by this section shall be approved if the construction and operation of [such] THE system or systems will cause water pollution endangering the water supply of any municipality or other public agency or private utility
