

language added to conform to the similar provision of §8-709(a) of this subtitle as to license application forms.

In subsection (b) (3) (i) of this section, a reference to "all border and trim" is added for clarity. This clarification is derived in part from the language of present §204(f) as to fees - "in accordance with the size of the billboard and structure" - and conforms to current practice. See, also, present Art. 89B, §252(b) (i) - now §8-731 of this subtitle - for similar language as to outdoor signs along Federal-Aid Primary Highways.

In subsection (b) (5) of this section, the more general reference to §8-716 of this subtitle is substituted for the present, limited reference to "safety of public travel". The present language reflects only §8-716(2) and inadvertently fails to reflect the various other criteria set forth in that section.

As to surety bond requirements for nonresidents, see Part VI of this subtitle.
