

PERMIT ANY VEHICLE TO BE DRIVEN UNDER THOSE PLATES.

REVISOR'S NOTE: This section is new language added for conformity and to avoid unnecessary repetition of its provisions throughout this Part.

Its provisions are derived from repeated references to the same effect in the source law to virtually every one of the sections in this Part or in the source law to their counterpart sections in Subtitle 9, Part III of this title.

While minor differences in language appear in the source law and, in one or two instances, a provision may have been omitted from a section in the source law, the apparent intent was to have these rules apply uniformly to all special registration plates issued under this Part.

In subsection (c) (2) of this section, the term "expires" - while not used in the various references in its source law - is added to express what apparently was omitted only because of its obviousness.

As to the use of the term "drive" in this section and throughout this subtitle, see §11-114 of this article and its revisor's note.
