

whose benefit the bond runs. As to "new ... Class A vehicles", see §15-101(c) of this subtitle.

In subsection (c) of this section, the phrase "or replaced by a bond that the Administration approves" is added for clarity. The Administration permits a change of sureties and replacement bonds in addition to "extensions" of a bond. This subsection is new language insofar as it applies to a manufacturer's or distributor's bond. It is made applicable to these bonds to permit a uniform administrative practice as to all bonds filed under this title.

The second sentence of present Art. 66 1/2, §3-113.3(b), which provides for the Administration to adopt rules and regulations for the filing and maintenance of bonds under that section, is deleted as unnecessary in light of the general rulemaking power granted by §12-104 of this article.

The last sentence of present Art. 66 1/2, §3-113.3(b), which provides for joint liability of a manufacturer with a dealer for the breach of a "manufacturer's express or implied warranty", is deleted as unnecessary in light of §§ 2-314 et seq. of the Commercial Law Article (U.C.C.). Those provisions were amended in 1975 to include all manufacturers and middlemen as "sellers" who may be held primarily liable for breach of warranty.

The only other changes are in style.
