

THE ADMINISTRATION FROM A LICENSED PHYSICIAN ATTESTING TO THE GENERAL PHYSICAL AND MENTAL QUALIFICATIONS OF THE APPLICANT.

REVISOR'S NOTE: This section presently appears as Art. 66 1/2, §6-103.

The present reference to persons who do not meet the age requirements of this title is deleted as redundant in light of the clear age requirements specified elsewhere in this subtitle. Also, the present reference to persons failing to deposit required "proof of financial responsibility" is deleted as obsolete; Ch. 73, Acts of 1972 repealed the former financial responsibility laws and substituted new "required security" provisions that are keyed to motor vehicle registration rather than licensing (see, Title 17 of this article).

In item (6) of this section, the present reference to "ordinary" control of a motor vehicle is deleted as unnecessary in light of the broad reference to "reasonable control".

Item (9) of this section is revised to clarify its application only to the issuance of "new licenses" and not to renewals; cf., e.g., §16-207(a) (2) of this title. The phrase "physical and mental qualifications" is substituted for "physical or mental qualifications"; since both are important, independent functions of driving, the present use here of the disjunctive would appear to have been an inadvertent error (cf., e.g., §16-208(a) of this title, which authorizes suspension of the license of any person "who cannot drive safely because of his physical or mental condition"). The phrase "acceptable to the Administration" is added to conform to the similar requirements of §16-103.2(a) (2) of this subtitle.

The only other changes are in style.

As to item (6) of this section and restricted licenses, generally, see §16-113 of this subtitle.
