Section 8-1103.1
Annotated Code of Maryland
(1974 Volume and 1977 Supplement)

Preamble

The Water Resources Administration has developed a program designed to reduce environmental damage to State streams resulting from sediment runoff by educating those engaged in commercial earth moving activities in proper sediment and erosion control practices. This program has been accepted throughout the country under federal sponsorship and has been used successfully in this State on a volunteer basis for 2 years. In an effort to reach all
