

to be corrected and returned to the county commissioners at a subsequent meeting. If the petition and report are found to be in due form and in accordance with the law, the county commissioners shall appoint a day for a public hearing upon the report and petition and shall give not less than ten days' notice of the time and place of the hearing. Such notice shall be published in a newspaper or newspapers having a general circulation in the county or counties in which the lands in the watershed association are located. During this time a copy of the report shall be on file in the office of the clerk of county commissioners, and shall be open to the inspection of any landowners or other person interested, and the notices shall so state. A notice of this and all subsequent hearings shall be sent to the State Department of [Drainage] AGRICULTURE, State Soil Conservation Committee, and [Department of] Water Resources ADMINISTRATION at least ten days prior to the date of such hearing.

186.

Upon its determination that the watershed work plan should be submitted to the board of county commissioners, the board of directors shall file the watershed work plan in triplicate with the board of county commissioners. A COPY SHALL BE FORWARDED TO THE STATE SOIL CONSERVATION COMMITTEE. The plan shall show:

1. The location of the proposed works of improvement on a map, drawing, or aerial photograph.
2. A general delineation of the boundaries of the public watershed association with the general location in the county or counties affected.
3. Engineering plans in sufficient detail to describe the proposed project or projects.
4. A general delineation of the boundaries of each affected individual ownership within the watershed association with an estimate of the acreage which each contains.
5. The total estimated construction cost of each of the proposed works of improvement.

With the above plan, the board of directors will include a statement that they have determined that the works of improvement

1. Are practicable.
2. Will promote the public benefit and be conducive to the public health, safety and welfare, and
3. Will produce benefits sufficiently to warrant the expenditures.
