

Professor, and Instructor, provided, that of this amount, \$500,000 shall be expended for selective increases to salaries or for change in academic rank of the existing faculty at the University of Maryland. This amount of the appropriation shall not be expended for any other purpose. The University shall report to the General Assembly the number and rank of faculty positions receiving selective increases, the amount of increase for each faculty position, and the impact of the selected increases in retaining faculty. The report shall also include information on the faculty who left the University, and where applicable, the reasons for leaving. This report shall be submitted prior to January 9, 1980; provided further, that of this amount, \$500,000 shall be restricted to the purpose of recruiting faculty and this amount of the appropriation shall not be expended for any other purpose. The University shall provide the General Assembly with a report as to the use of this amount including a description of the priority of new faculty members sought, the degree of success attained, and the amount in excess of existing salary levels used to recruit the individual faculty members, and the number of faculty recruited. This report shall be submitted prior to January 9, 1980; and \$9,979,338 ~~\$7,732,031~~ \$9,979,338 are restricted for a 6% salary increase for all full-time general funded employees of the University actually in working status and on the
