

(1) Report periodically on the volume and chemical, physical, and biological nature of material received and discharged by the facility;

(2) Provide evidence of financial ability to properly operate a facility;

(3) Restore, to the extent reasonably practicable, the facility site to its original condition when use of the area for designated hazardous substances disposal is terminated;

(4) Establish emergency procedures and safeguards necessary to prevent accidents and reasonable foreseeable damage to humans and the environment;

(5) Design, construct, and operate the facility in the manner approved by the Department;

(6) Provide access to the facility at any reasonable time for the purpose of obtaining water samples, drilling test wells, measuring volumes and kinds of substances received and discharged, and inspecting the facility;

(7) File with the Department OF HEALTH AND MENTAL HYGIENE acceptable evidence of a bond or other security deemed sufficient and adequate by the Department to cover any costs for:

(i) The monitoring, maintaining, and closing of the facility;

(ii) The security of the facility after its closure; and

(iii) Guaranteeing fulfillment of all permit requirements; or

(8) Assist, under appropriate circumstances, in the transfer of public ownership or operation of a facility by a qualified agency of any subdivision of the State or by the Maryland Environmental Service.

(1) Transportation of designated hazardous substance. -- Except for designated hazardous substances used for residential purposes or those regulated by the Department of Agriculture, a person may not transport a designated hazardous substance to a facility within the State unless the person first obtains a certificate from the Department OF HEALTH AND MENTAL HYGIENE and the transporting vehicle is certified by the Department OF HEALTH AND MENTAL HYGIENE. As a condition to the issuance of a certificate, the Department OF HEALTH AND MENTAL HYGIENE may require a prospective holder of certificate to:
