

(j) [Administration] DEPARTMENT OF HEALTH AND MENTAL HYGIENE may impose conditions for permits. -- The [Administration] DEPARTMENT OF HEALTH AND MENTAL HYGIENE shall impose as conditions in permits for the discharge of pollutants from publicly owned treatment works, requirements for information to be provided by the permittee concerning new introductions of pollutants or substantial changes in the volume or character of pollutants being introduced into the treatment works.

The [Administration] DEPARTMENT OF HEALTH AND MENTAL HYGIENE may impose as conditions in permits for the discharge of pollutants from publicly owned treatment works appropriate measures to establish and insure compliance by industrial users with any system of user charges required under State or federal law or any regulations or guidelines promulgated thereunder.

(k) Enforcement against public treatment works. -- The [Administration] DEPARTMENT OF HEALTH AND MENTAL HYGIENE may apply and enforce pursuant to this title, toxic effluent standards and pretreatment standards for the introduction into treatment works of pollutants which interfere with, pass through, or otherwise are incompatible with the treatment works, against industrial users of publicly owned treatment works. The [Administration] DEPARTMENT OF HEALTH AND MENTAL HYGIENE may promulgate rules and regulations to implement this section.

(l) Revocation of permits. -- The [Administration] DEPARTMENT OF HEALTH AND MENTAL HYGIENE may revoke any permit issued pursuant to this title or rule or regulation promulgated pursuant thereto, upon a determination by the [Administration] DEPARTMENT which may include but is not limited to the following findings:

(1) False or inaccurate information was contained in the application;

(2) Conditions or requirements of the permit have been or are about to be violated;

(3) Substantial deviation from plans, specifications, or requirements has occurred;

(4) The [Administration] DEPARTMENT was refused entrance to the premises for the purpose of inspecting to insure compliance with the conditions of the permit;

(5) Change in conditions exists requiring temporary or permanent reduction or elimination of the permitted discharge;
