

EXECUTIVE ORDERS

(f) the appropriateness of provision of interim certification with respect to lengthy apprenticeship programs;

(g) means by which existing apprenticeship programs might be consolidated and improved and extended to other occupations;

(h) the appropriateness of measures to stimulate offering of vocational training programs in public schools on evening and weekend hours and to more adequately publicize the eligibility to school leavers under the age of 21 of free attendance at such courses;

(i) the appropriateness and cost of provision to school leavers of vouchers conferring educational entitlements to counselling services and training at proprietary schools and other schools preparing for license examinations;

(j) the means by which follow-up services to school leavers might be improved and the appropriateness of staggered school leaving times;

(k) the enforcement of, and appropriateness of modifications in, the compulsory education laws;

(l) means by which greater use by Maryland employers of the Federal targeted tax credit and Federal subsidy programs might be encouraged;

(m) the appropriateness of State supplementation of the targeted tax credit and revival in modified form of the former summer scholastic employment program;

(n) the appropriateness and cost of strengthening of existing programs relating to school community centers, employment counselling services in schools, and school guidance services;

(o) development of a unified mode of selection for part-time and summer State employees, and consideration of selection standards;

(p) consideration of whether State summer employees should be employed on the basis of a
