

In subsection (e)(2) of this section, the present requirement that applicants must pass "an examination" on physical therapy to qualify for a license to practice chiropractic with the right to practice physical therapy is clarified. The Board considers this "examination" to be the subsection of the examination that covers physical therapy. The revised language also clarifies the meaning of the present reference to answering correctly 60 percent of the questions on any "branch" of the examination. In practice, a branch is considered to be a subject of the examination, and each subject is covered under a separate subsection of the examination. Therefore, an applicant must answer correctly the required percentage of questions in "each subsection of the examination".

For additional provisions regarding the practice of physical therapy by a chiropractor, see §§ 3-101(g), 3-301, 3-302(e), and 3-307 of this title.

In subsection (f) of this section, the word "authorized" is substituted for "approved" for clarity.

The provision in present Art. 43, § 504(b) that relates to chiropractors licensed or in chiropractic school on June 1, 1949, now appears in § 3-302(e)(2) of this subtitle.
