

[3-211.

(a) A person may not sell, donate, or distribute any biological product containing living organisms except as provided by this section.

(b) A doctor of medicine or a veterinarian licensed to practice in the State may order any biological product if he submits to the vendor or distributor a statement containing the name and address of the owner of the animal to be treated, the object of the treatment, and a statement over the doctor's or veterinarian's signature that he is personally responsible for the proper use of the biological product.

(c) The vendor or distributor shall keep a record of the original of the order and shall forward immediately a copy to the Secretary. The person who orders the product shall report the receipt of the material to the Secretary and submit a list of the animals he proposes to treat, giving their ages and an identifying description of each.]

[3-212.

No person may sell or distribute milk or any milk product from any animal treated with any biological product containing living organisms within six months of the date of the last dose or injection, except with the written consent of and under the conditions as the Secretary determines.]

[3-213.] 3-209.

(a) No person may treat any animal with any material or substance or in any manner for the purpose of preventing normal reaction of the animal to any test.

(b) A person may not knowingly sell or offer for sale any animal that has reacted to any test, without informing the purchaser of the reaction.

(c) No animal that has reacted to a test may be sold or removed from the premises where the test was made without the written permission of the Secretary.

SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect July 1, 1981.

Approved April 28, 1981.
