

(now § 3-202(g)(2) of this title), as that section relates to the appointment of replacement Board members, and present Art. 43, § 501(c) (now § 3-205(a)(1) of this title), as that subsection relates to impartial regulations. The references are retained in the revision to avoid substantive change. However, the Board feels the provisions serve no purpose and could be repealed safely. Therefore, the General Assembly may wish to examine these provisions.

The present law requires that a licensee record a license with the clerk of the court in the counties in which the licensee resides and practices, imposes sanctions if the licensee does not record a license, and authorizes the Board to remove the name of a licensee from the court records in some circumstances. Only this title and the title that relates to Osteopathy contain this recording requirement. It is an archaic procedure that provides only minimal notice to the public, and rarely is observed in practice. Therefore, the Commission to Revise the Annotated Code has deleted present Art. 43, § 506(a), as that section relates to the removal of the name of a licensee from the records of a clerk of a court, § 507, and the last sentence of § 508(a).

Present Art. 43, § 505, which was enacted in 1920 and provides for the licensing without examination of certain persons practicing in that year, is deleted as obsolete since none of the persons affected are still practicing.

The first sentence of present Art. 43, § 514, which states the duty of certain attorneys to prosecute, is deleted as unnecessary in light of Art. 10, § 34, which provides that it is the duty of the State's attorneys to prosecute for this State.
