

The present reference to regulating the flow and quality of an effluent is deleted as unnecessary.

(H) INDUSTRIAL WASTEWATER WORKS.

"INDUSTRIAL WASTEWATER WORKS" MEANS A FACILITY USED TO COLLECT, STORE, PUMP, TREAT, OR DISCHARGE ANY WASTE SUBSTANCE THAT RESULTS FROM:

- (1) A MANUFACTURING PROCESS;
- (2) A BUSINESS PROCESS; OR
- (3) THE DEVELOPMENT OF A NATURAL RESOURCE.

REVISOR'S NOTE: This subsection is new language derived without substantive change from Art. 43, § 406A(b)(3).

The present term "transmission" is deleted as unnecessary in light of the terms "collect" and "pump".

The present enumeration of types of waste substances is deleted as unnecessary.

In items (1) and (2) of this subsection, the present words "industry" and "trade" are deleted as included in the meaning of the words "manufacturing" and "business".

(I) OPERATOR.

(1) "OPERATOR" MEANS AN INDIVIDUAL WHO PARTICIPATES IN THE OPERATION OF:

(I) A WATERWORKS, INCLUDING THE CONTROL OF THE FLOW, PROCESSING, AND DISTRIBUTION OF WATER; OR

(II) A WASTEWATER WORKS, INCLUDING THE COLLECTION, CONTROL OF FLOW, PROCESSING, AND DISCHARGE OF WASTEWATER AND EFFLUENT.

(2) "OPERATOR" DOES NOT INCLUDE A SUPERINTENDENT.

REVISOR'S NOTE: This subsection is new language derived without substantive change from Art. 43, § 406A(b)(6)(i).

Present Art. 43, § 406A(b)(6)(i)(C), which refers to an operator participating in the operation of an industrial wastewater works, is deleted as inconsistent with the definition of "industrial operator" in subsection (g) of this section.
