

The reference to a "hole made in the ground" is substituted for the references in NR § 8-601(h) to types of holes and to methods of making holes.

The phrase "underground formation from which ground water may be produced" is substituted for the definition of "aquifer" in NR § 8-601(c) for conciseness.

(G) WELL SYSTEM EQUIPMENT.

(1) "WELL SYSTEM EQUIPMENT" MEANS ANY EQUIPMENT THAT IS NECESSARY TO DRAW OR PURIFY WATER FROM A WELL.

(2) "WELL SYSTEM EQUIPMENT" INCLUDES ANY CASING, GROUT, SCREEN, WATER TANK, WATER PUMP, OR WATER CONDITIONING EQUIPMENT.

REVISOR'S NOTE: This subsection is new language derived in part from NR § 8-601(e), as that subsection relates to the various types of equipment used for well drilling. It is added to avoid needless repetition of the various items of equipment.

In paragraph (1) of this subsection, the phrase "draw or purify" is substituted for the phrase "draw and purify" to clarify that equipment that may serve only one of those functions is included, e.g., a chlorinator used to purify water.

In paragraph (2) of this subsection, the terms "casing", "grout", and "screen" are added for clarity.

21-102. SCOPE OF TITLE.

(A) IN GENERAL.

THIS TITLE DOES NOT LIMIT THE RIGHT OF AN INDIVIDUAL TO PRACTICE A HEALTH OCCUPATION THAT THE INDIVIDUAL IS AUTHORIZED TO PRACTICE UNDER THIS ARTICLE.

(B) MASTER PLUMBER.

THIS TITLE DOES NOT LIMIT THE RIGHT OF AN INDIVIDUAL TO INSTALL OR REPAIR A WATER PUMP, A WATER TANK, OR WATER CONDITIONING EQUIPMENT IF THE INDIVIDUAL IS AUTHORIZED TO PRACTICE AS A MASTER PLUMBER IN THIS STATE.

REVISOR'S NOTE: Subsection (a) of this section is new language added to reflect more accurately the state of the present law and to conform to the language used in similar provisions in other titles of this article.
