

standard language used in corresponding sections of other titles of this article to state expressly that applications may be made only on the form required by the Board.

As to subsection (a)(2) of this section, the provisions in present Art. 32, § 8 that the application fee for a general license to practice dentistry is nonrefundable, and that the entire fee is payable even if parts of the examination are waived, are deleted as unnecessary.

As to subsection (b) of this section, the present law is unclear -- and possibly self-contradictory -- as to who actually applies for a limited license to practice dentistry: the individual or the institution. Present Art. 32, § 5(c) refers to the license being issued "upon application of the" institution, but refers to the individual as the "applicant". In practice, the individual makes the application, but is required to include a written request from the institution that the license be issued. The revised language conforms the law to this practice and eliminates the ambiguity.

Also as to subsection (b) of this section, the reference in present Art. 32, § 5(c) to an applicant for a limited license to practice dentistry providing proof of qualifications is deleted as potentially misleading and, in any event, unnecessary. Each applicant for a license governed by a title of this article can be required to submit to the appropriate board proof of meeting the qualifications.

As to the third sentence of present Art. 32, § 5(c), see also § 4-308 of this subtitle.

As to the authority of the Board to set fees, see § 4-207 of this title.
