REVISOR'S NOTE: This section is new language derived without substantive change from Art. 43, §§ 364 and 365.

As to subsection (c) of this section, present Art. 43, § 365, which states that the cost of maintaining the school shall be defrayed from the receipts for tuition fees, examination fees, renewal fees, and license fees, is retained here with only stylistic changes. This provision appears to be inconsistent with the provision of present Art. 43, § 360, now § 6-206(b) of this title, which provides that the Board pay all funds that it collects into the General Fund of this State. Also, the system specified in this section does not appear to be an effective way to provide the operating costs for a program of this kind. However, because of the vagueness of this provision, the Commission to Revise the Annotated Code was unsure that it could be deleted without making an unintended substantive change.
