

of a misdemeanor and, upon conviction thereof, shall be fined not less [that] THAN \$500.00. No conviction hereunder shall in any manner relieve any person of the necessity of securing and paying for a permit and complying with all other applicable provisions of this section.

8-3. Written permits required in Montgomery County.

(a) From and after June 1, 1957, no individual, firm or corporation shall construct, alter or extend, nor after June 1, 1965 operate contrary to the provisions of subsection (c) hereof, a water supply system or a sewage collection and disposal system in any area in Montgomery County, Maryland, not included within the area of the Washington Suburban Sanitary District, without having received a written permit from the Washington Suburban Sanitary Commission so to do; and the permit for such purpose shall not be issued until complete plans and specifications for the installation, alteration or extension, together with such information as the commission may require, have been submitted to and approved by the commission. All construction shall take place in accordance with the approved plans and shall be subject to the inspection of the commission. In case it shall become necessary or desirable to make material changes in plans and specifications, such changed plans and specifications, together with a statement of the reasons for the alteration, shall be submitted to the commission and no material changes shall be embodied in the actual construction until they have been approved and a permit issued therefor.

(b) The Washington Suburban Sanitary Commission is hereby authorized and directed to approve plans in accordance with its requirements and issue permits for the construction, alteration or extension of a water supply system, a sewage collection and disposal system in the areas described in subsection (a) hereof, with the right in [said] THE commission to charge a reasonable fee therefor, not exceeding six per cent of the estimated construction cost of any such project. The [said] commission is further authorized and directed to make inspections of all such projects during the course of construction and to require such construction to be in conformity with the approved plans.

(c) Upon the completion of any such project the individual, firm or corporation constructing the same shall file with the commission as a permanent record a certified copy of the plans in full, showing the work as built, and such record shall be of such character and in such forms as may be prescribed by the commission. Any water supply, sewage collection and disposal system, including oxidation ponds or sewage lagoons, which is not exempt from the requirements for a permit pursuant to subsection (e) of this section, shall be installed, maintained and operated under such reasonable rules and regulations as the commission may require or devise. The commission is authorized and
