

In subsection (a) of this section and elsewhere in this title, since the word "license" implies "current", "unsuspended", and "unrevoked", these qualifying terms are deleted as unnecessary.

As to subsection (b) of this section, the Commission to Revise the Annotated Code has interpreted present Art. 43, § 792(c) and (f) to be exceptions rather than complete exemptions from this title. There is no rationale for arguing that an individual who falls into one of the "exceptions" of present Art. 43, § 792(c) and (f) and chooses not to obtain a license should not be subject to criminal prosecution for, e.g., counterfeiting licenses, while another individual in the same circumstances who chooses to obtain a license is subject to criminal prosecution for the same actions.

In subsection (b)(1)(i) of this section, the present reference to "Baltimore City" is deleted as unnecessary in light of the definition of "county" in § 1-101 of this article.

As to the referenced exceptions in subsection (a) of this section, see also § 2-102 of this title.

Present Art. 43, § 792(a), which provides for separate licensing of an individual as an audiologist and as a speech pathologist, is deleted as unnecessary. All provisions that relate to speech pathologists now appear in Title 19 of this article. See the General Revisor's Note to this title.
