Article 43 - Health

14.

(b) (1) Methods, Books and Forms. The State Board of Health and Mental Hygiene shall collect certificates of birth, death and fetal death, shall preserve and protect them from loss by fire and other damage, and shall make indices to such certificates. It shall decide appropriate methods and design the necessary forms for accurate registration of vital records, and shall supply local health officers, physicians, midwives, funeral directors, MORTICIANS, ministers, clerks of court, and other persons charged with any duty under this subtitle, with the required forms. Upon receipt of a completed birth, death, or fetal death certificate, the State Board of Health and Mental Hygiene shall forward a copy of the original certificate to the county health officer concerned. The State Board of Health and Mental Hygiene shall prepare annually or more often reports of vital statistics including population estimates, and shall have such reports printed and distributed to officials, departments, libraries, and persons whom it may deem entitled thereto.

20.

(a) (2) All other information that is required on the certificate of death shall be executed by the MORTICIAN, funeral director, or that person who is in charge of the remains of the body. However, if an unclaimed body or donated body is sent to the Anatomy Board, the information required in this paragraph shall be filled out by a representative of the hospital, nursing home administrator, medical examiner, MORTICIAN, funeral director, or other person last in charge of the body before it is sent to the Anatomy Board.
