REVISOR'S NOTE: This section is new language derived without substantive change from former Article 43, § 274.

The defined term "controlled poison" is substituted for "poison" for clarity.

The term "schedule" is used to conform to practice. See also Article 27, § 279 of the Code.

The former phrase "within the meaning of this subtitle" is deleted as included in the defined term "controlled poison".

In the introductory language to each subsection of this section, the phrase "any compound, mixture, derivative, isomer, ester, ether, or salt of the following ..." is added for clarity.

The revised schedule was organized in a chemical family framework with the assistance of the Board of Pharmacy, the Drug Control Division of the Department, and the University of Maryland's
