REVISOR'S NOTE: This section is new language derived without substantive change from former Article 27, § 319.

In this section, the former references to containers that did not meet the requirements of this section as being "misbranded" are deleted as unnecessary.

In subsection (a) of this section, the term "dangerous", which formerly described "caustic or corrosive substances", is deleted as unnecessary.

Also in subsection (a) of this section, the phrase "compound or mixture" is substituted for the term "preparation" to conform to the pattern of other definitions in this title.
